

NADIA SUTTON, MD, MPH

UNIVERSITY OF MICHIGAN | UNITED STATES

SPECIALTY: INTERVENTIONAL CARDIOLOGY

Nadia R. Sutton, MD, MPH, FACC, FSCAI is a Clinical Lecturer in the Division of Cardiovascular Medicine, Section of Interventional Cardiology at the University of Michigan (UM). Dr. Sutton received her Medical Degree from Loyola University of Chicago, where she graduated cum laude, with Honors in Research. She received her Master's in Public Health from Boston University. She undertook her post-graduate training in Internal Medicine, Cardiovascular Medicine, and Interventional Cardiology at the UM and served as Chief Interventional Cardiology Fellow. She also completed research training through a National Institutes of Health training grant. Dr. Sutton's clinical interest is in percutaneous treatment of coronary artery disease, with a special interest in treating older adults (geriatric cardiology). Dr. Sutton is a physician-scientist researching mechanisms of vascular aging and seeks to identify interventions that promote healthy vascular aging. She has authored or co-authored publications in *Journal of Clinical Investigation (JCI)*, *JCI Insight*, *Journal of Biological Chemistry*, *JAMA Internal Medicine*, *JAMA Network Open*, *Circulation*, *Circulation: Quality and Outcomes*, *Circulation: Cardiovascular Interventions*, *Arteriosclerosis Thrombosis, and Vascular Biology (ATVB)*, and *Journal of the American College of Cardiology (ACC)*. At the University of Michigan, Dr. Sutton enjoys teaching undergraduates, medical students, residents, cardiology fellows, and interventional cardiology fellows. Dr. Sutton is an active member of the Washtenaw County American Heart Association (AHA) Heart Ball Leadership Committee, the AHA ATVB Women's Leadership Committee, the ACC National Cardiovascular Data Repository Cath PCI Research & Publications Subcommittee, and serves as an Assistant Editor on the *Circulation: Cardiovascular Interventions* editorial board.
